

# Fact Sheet: Milneburg Recovery Roads Program Repairs

City of New Orleans  
Department of  
Public Works

## Project Summary:

The City of New Orleans will implement a multi-million dollar, multi-year comprehensive infrastructure improvement program to repair Hurricane Katrina related sub-surface and road damages. Types of repairs deemed eligible for improvement by FEMA include utilities, sidewalks, American with Disabilities Act compliant ramps, driveway aprons, curbs and road paving.

## Project Facts:

**Phase I:** Between 2008-2009, the City of New Orleans performed citywide repairs to approximately 17,000 damage sites at an estimated cost of \$55.2 M. Completed repairs in Milneburg totaled approximately \$3.2 million.

**Phase II:** The Milneburg Recovery Roads program will include multiple construction repair projects with a total estimated value of approximately \$1,200,000 million for roadway improvements. Design of the future road repairs is currently underway and is being closely coordinated with the Sewerage and Water Board of New Orleans. In Milneburg, construction is currently scheduled to begin in Late Winter 2013 and last through Late Winter 2014. Road resurfacing work will be limited in some areas of Milneburg. The Sewerage and Water Board of New Orleans will complete subsurface utility line improvements prior to the Department of Public Works' road repairs.

## What to expect during construction:

Residents and businesses in the Milneburg area should exercise caution when driving, bicycling or walking near active construction sites. Residents can expect to experience temporary construction inconveniences such as limited access to areas within the construction zones, detours, movement of heavy equipment, safety signage and sounds.

In general, construction crews will be working from 7 a.m. to 5 p.m. , Monday through Friday. Hatch Mott MacDonald is designing road improvements in the Milneburg area. The construction contract is scheduled to be available for bid in Fall 2013.

## Funding Facts:

Neighborhood Area	Status	Consultants	Total Estimated Repairs
Phase I Repairs	Completed	N/A	\$3,200,000
Phase II Repairs—Milneburg	Design	Hatch Mott MacDonald	\$1,200,000*
	Construction	TBD	
TOTAL Repairs—Milneburg			\$4,400,000*

\* FEMA inspectors will be working onsite with the City's design and construction contractor teams. During construction they are likely to identify additional storm damages that may be eligible for repair. In many cases it is likely the scope of work may be adjusted to include additional repairs.
